MAK

THE COMPANY

MAK S.p.A., a manufacturer of alloy wheels founded in 1991, is today among the leading companies in the sector, both nationally and internationally, with an annual turnover of approximately 60 million euros and a production of 400,000 wheels per year. The main elements behind MAK's success are its high quality standards, its wide and diverse product range, its responsiveness to market demands, and its strong flexibility in production planning and order customization. MAK ensures fast global delivery to every destination thanks to a warehouse that constantly holds over 120,000 wheels and 4,000 items.

In 2024, the company completed a major **Reshoring** process: the **Back-to-Italy** initiative concluded several investments that increased production capacity by 20%, through the expansion of new robotic manufacturing cells and the construction of a brand-new facility housing a **Painting Plant**, built in accordance with **Industry 4.0 standards**, that ensure the same finish quality as the original plant. The company has undertaken energy efficiency initiatives, including the installation of photovoltaic systems aimed at supporting the energy needs of its business operations.

Passion, Quality, and Made in Italy Design define the company, which continues to gain increasing recognition, particularly in the mid-to-high-end vehicle segment.

L'AZIENDA

MAK S.p.A., azienda produttrice di ruote in lega nata nel 1991, si posiziona oggi tra i maggiori leader del settore nel panorama nazionale ed internazionale, con un fatturato di circa 60 milioni di euro e una produzione di 400.000 ruote l'anno. Gli elementi principali del successo di MAK sono gli elevati standard di qualità, l'ampia varietà della gamma prodotti, la pronta risposta alle esigenze del mercato e l'elevata flessibilità nella pianificazione e personalizzazione degli ordini. MAK raggiunge a livello globale ogni destinazione con tempestività grazie a un magazzino sempre fornito di più di 120.000 ruote e 4.000 articoli.

L'azienda ha completato nel 2024 un importante processo di **Reshoring**: il **Back-to-Italy** completa diversi investimenti che hanno consentito un aumento della capacità produttiva del 20% mediante l'ampliamento delle nuove isole robotizzate e la costruzione ex-novo dell'immobile che ospita l'impianto di **Verniciatura** rispondente ai parametri di **Industria 4.0** in grado di garantire la medesima qualità della finitura del primo impianto. L'azienda ha avviato interventi di efficientamento energetico, tra cui l'impiego di impianti fotovoltaici destinati a contribuire al fabbisogno energetico delle attività aziendali.

Passione, Qualità e Design Made in Italy contraddistinguono l'azienda, che trova un crescente consenso soprattutto nel segmento delle vetture di fascia medio-alta.

MAK PERFECT MATCH POLICY

With a view to perfectly matching the entire wheel system, MAK proposes its **PERFECT MATCH POLICY**: the perfect combination of the shades of all the elements for a coordinated and captivating result, in line with the high quality of MAK products.

MAK always proposes the correct colour matching of accessories such as **nuts and bolts**, **hub CAPS** and **TPMS valve**, already present on the **B2B platform**, in the certainty that the ensemble obtained from this combination of products will give the alloy wheel an **optimal aesthetic result**.

Attention to details makes the difference between a standard product and a **Premium** one: MAK's PERFECT MATCH POLICY is undoubtedly one of the aspects that **elevates and distinguishes the brand**, with a view to providing a proposal that is always more appropriate and appreciable by B2B and B2C customers.

Nell'ottica di perfetto abbinamento di tutto il sistema ruota, MAK propone la propria **PERFECT MATCH POLICY**: la perfetta combinazione delle tonalità di tutti gli elementi per un risultato coordinato, accattivante e in linea con l'elevata qualità dei prodotti MAK.

MAK propone sempre il corretto accoppiamento cromatico degli accessori quali **CAP coprimozzo**, **valvola TPMS** e **bulloneria** già all'interno della **piattaforma B2B**, nella certezza che l'insieme ottenuto da questa combinazione di prodotti conferisca alla ruota in lega un **risultato estetico ottimale**.

L'**attenzione per i dettagli** fa la differenza tra un prodotto standard e uno **Premium**: la PERFECT MATCH POLICY di MAK è senza dubbio uno degli aspetti che **innalza e distingue il marchio**, nell'ottica di fornire una proposta sempre più azzeccata e apprezzabile dalla committenza e dalla clientela finale.

HOMOLOGATIONS

All **MAK** wheels are homologated according to each country regulations. MAK range is always up-to-date thanks to a constant and strong effort during the homologation, testing and quality-check operations. Along with each wheel MAK provides the required homologation paper, granting the conformity of the wheels mounted on your car.

MAK laboratory achieved the **VIA certification and accreditation from the Ministry of Infrastructure and Transport** to proceed with the required tests for the approval of its products. Companies are awarded with these certifications only after a careful scrutiny by the competent authorities, who recognize MAK as having the necessary quality to test their products.

OMOLOGAZIONI

Tutte le ruote **MAK** sono omologate secondo le normative vigenti nei vari paesi del mondo. Un costante e intenso impegno nelle fasi di omologazione, di test e di controllo qualità, permette alla gamma MAK di essere sempre aggiornata. Ogni ruota è corredata dalla necessaria documentazione che garantisce la regolarità del prodotto montato sulla vostra auto.

Il laboratorio **MAK** ha conseguito la **certificazione VIA e l'accreditamento dal Ministero delle Infrastrutture e dei Trasporti** per lo svolgimento dei test necessari all'omologazione dei propri prodotti. Queste certificazioni vengono attribuite solo dopo una scrupolosa verifica da parte degli enti competenti, che ne riconoscono la qualità necessaria e idonea a testare i propri prodotti.

The best products in the market for heavy vehicles.

I migliori prodotti sul mercato per i mezzi pesanti.

trkwheels.it

TRK TRUCK YOUR ROUTE

Steel wheels / Ruote in acciaio

Top quality steel wheels.

Ruote in acciaio di elevata qualità.

Complete kit / Kit completi

Complete kits will be delivered already assembled, balanced and, when necessary, provided with fitting kit and TPMS already programmed for the car.

I kit completi saranno consegnati già montati, bilanciati, dove necessario, con bulloneria per il montaggio e TPMS già programmati per la vettura.

The products here listed may not be available for some countries: check the availability on our B2B platform or with your local distributor.
I prodotti qui presentati possono non essere disponibili per alcuni Paesi: verifica la disponibilità sulla nostra piattaforma B2B o con il tuo referente commerciale.
